

Nedjetti

Hairstyling since age 7 (taught by her mom), renowned hair artist Nedjetti is here to stay. From styling perms and weaves to 'locs and curls, she makes any creation her own!

She has styled celebrities including the exquisite model Laurence, singer Joan Osborne, actress N'Bushe Wright, actress Morena Baccarin (*Firefly*, sci-fi) WNBA Indiana Fever guard Coquese Washington, musician/actor Mos Def & designer Anton of Shapes by Anton among others.

Nedjetti's signature hairstyles and hair care interviews have adorned *Velvet Park* (cover), *Upscale*, *Honey*, *King*, *Black Beauty n' Hair* (UK) & *Wooftin Girl* Dept. (Japan) magazines to name a few. She has become a sought-after hair artist in the industry because her hair creations are expressions of uniqueness and originality that she at times can't duplicate. Her objective and passion is to work full-time as a hair artist in the entertainment industry.

Her expertise is also being absorbed by the film industry. Recently, Nedjetti is the key hairstylist for the testimonials in actress Sheryl Lee Ralph's infomercial product line called "Skin Salon Gold," developed for people of color, airing nationwide at the end of 2002. Nedjetti eloquently shares her wonderful testimonial experience in regards to Sheryl's super skin care line in the infomercial.

In her spare time, this native New Yorker graces the screen as an actor as well. She filmed *Justin Brown* with director Charles Allyn and has worked with Spike Lee on a "State Farm" commercial.

Pure artistry must be in the bloodline because Nedjetti & comedian Steve Harvey are second paternal cousins and yes, we can see Harvey's resemblance. ■
